

Integrated Business Management & ERP Solution

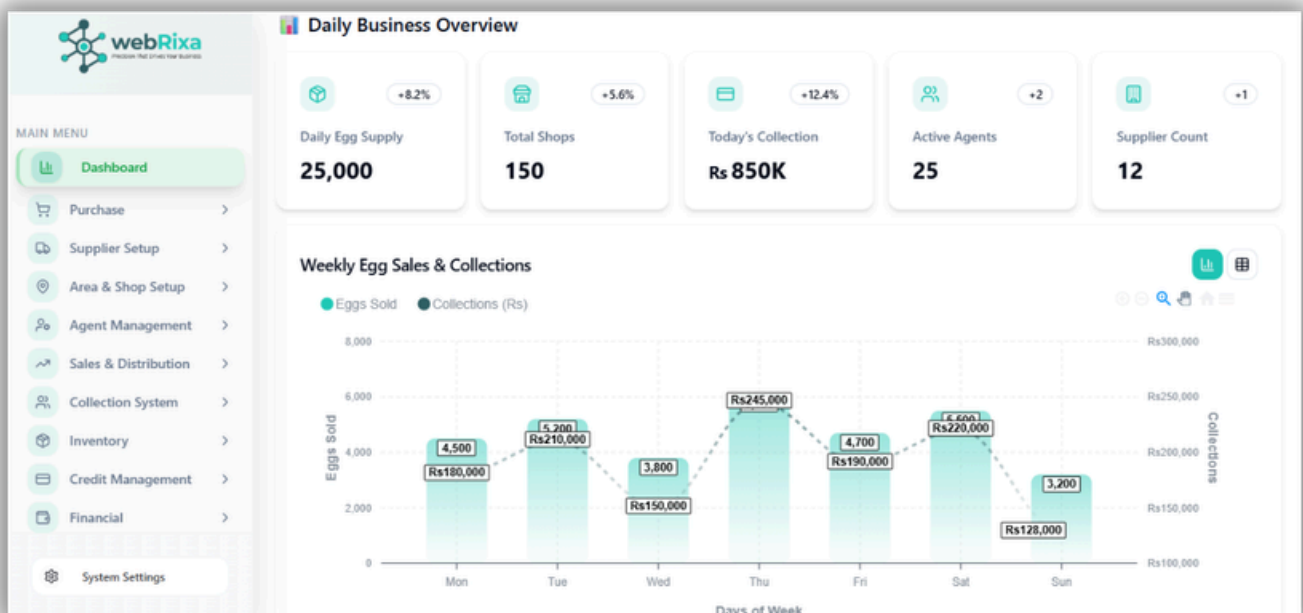

webRixa is an all-in-one business management platform designed to streamline commercial operations, financial tracking, and supply chain logistics. By integrating sales, purchase, and inventory into a single ecosystem, webRixa provides businesses with total control over their cash flow, stock levels, and partner relationships, ensuring maximum profitability and operational transparency.

01. Dashboard

The webRixa Dashboard provides a high-level cockpit view of your entire business performance. It aggregates data from sales, collections, and inventory to present real-time KPIs, helping business owners make quick, informed decisions based on current market trends and internal liquidity.

- Consolidated view of total sales and daily collections.
- Stock alerts and low-inventory notifications.
- Visual charts for revenue growth and expense tracking.

Precision That Drives Your Business

02. Purchase

Managing procurement efficiently is vital for maintaining margins. The Purchase module handles the entire procurement cycle, from generating Purchase Orders (PO) to receiving goods and managing supplier invoices. It ensures that every item entering the warehouse is tracked against its cost and quality.

- Purchase Order (PO) creation and tracking.
- Goods Received Note (GRN) management.
- Cost analysis and purchase history logs.

The screenshot shows the 'Add Daily Purchase' form in the webRixa system. The form is titled 'Add Daily Purchase' and includes the following fields and values:

- Purchase Date:** 05/04/2026
- Invoice Number:** Auto-generated
- Supplier:** (empty)
- Egg Type:** (empty)
- Purchase Quantity:** 0
- Quantity Type:** Crate (30 pieces)
- Association Rate:** \$ 0
- Rate (Per Crate):** \$ 0
- Total Amount:** 0
- Paid Amount:** 0
- Balance Amount:** 0
- Commission (per unit):** \$ 0

Additional information displayed at the bottom of the form:

- 0 Crate x Rs 0 = Rs 0
- Total Pieces: 0 pieces
- Payment Status: pending
- Commission Amount: Rs 0

Precision That Drives Your Business

03. Suppliers

This module centralizes all vendor information, ensuring a smooth supply chain. It manages supplier profiles, contact details, payment terms, and performance history. Maintaining a healthy relationship with suppliers is made easier with transparent ledger tracking and automated communication.

- Detailed Supplier Ledger and outstanding balances.
- Vendor categorization and performance rating.
- Historical pricing data per supplier.

The screenshot displays the 'Add New Supplier' form within the webRixa Egg Collection Manager. The interface includes a top navigation bar with the webRixa logo and the text 'Precision That Drives Your Business'. The main menu on the left lists various system functions, with 'Supplier Setup' and 'Add New Supplier' highlighted. The form itself is titled 'Add New Supplier' and is divided into two main sections: 'Basic Information' and 'Address Information'. The 'Basic Information' section contains fields for 'Supplier Name *', 'Contact Person *', 'Email Address', 'Phone Number *', and 'Alternate Phone'. The 'Address Information' section includes a 'City *' dropdown menu, a 'Status' dropdown menu (set to 'Active'), and a 'Complete Address *' field. The form is designed with a clean, modern aesthetic and includes validation markers (red asterisks) for required fields.

04. Setup

The Setup module is the configuration hub of webRixa. It allows administrators to define fundamental business parameters, including tax structures, unit of measures (UOM), product categories, and system-wide default settings to ensure the software aligns perfectly with specific industry requirements.

- Multi-location and branch configuration.
- Category and Brand management.
- Customizable system preferences and formats.

The screenshot displays the 'Add New Area' form within the webRixa application. The interface includes a top navigation bar with the webRixa logo and a main menu on the left. The main content area is titled 'Add New Area' and contains the following fields:

- Area Name ***: A text input field with a placeholder 'Enter area name...'.
- Area Code ***: A text input field with a placeholder 'e.g., MT-LHR'.
- City ***: A dropdown menu with the placeholder 'Select city'.
- Description**: A large text area with a placeholder 'Describe the area, its characteristics, and business potential...'.
- Status**: A dropdown menu with the selected value 'Active'.

A 'Save Area' button is located at the bottom right of the form.

05. Agents

For businesses driven by field sales, the Agents module tracks the performance and activities of sales representatives or middle-men. It manages commission structures, assigned territories, and individual targets, providing a clear picture of who is driving the most value.

- Agent commission calculation and tracking.
- Territory and route assignment.
- Sales performance metrics per agent.

06. Sales

The Sales module is the primary revenue engine. It manages everything from quotations and proforma invoices to final sales invoicing and point-of-sale (POS) transactions. It ensures that every sale is accurately recorded and stock levels are updated in real-time.

- Quotation and Sales Order management.
- Invoicing with customizable tax and discount fields.
- Real-time integration with inventory and finance.

Precision That Drives Your Business

07. Collection

Turning sales into cash is critical. The Collection module manages the recovery of outstanding payments from customers. It tracks aging reports and helps the recovery team stay on top of due invoices, ensuring the business maintains healthy cash flow and minimal bad debts.

- Payment tracking for credit sales.
- Customer receipts and deposit management.
- Aging reports and overdue payment alerts.

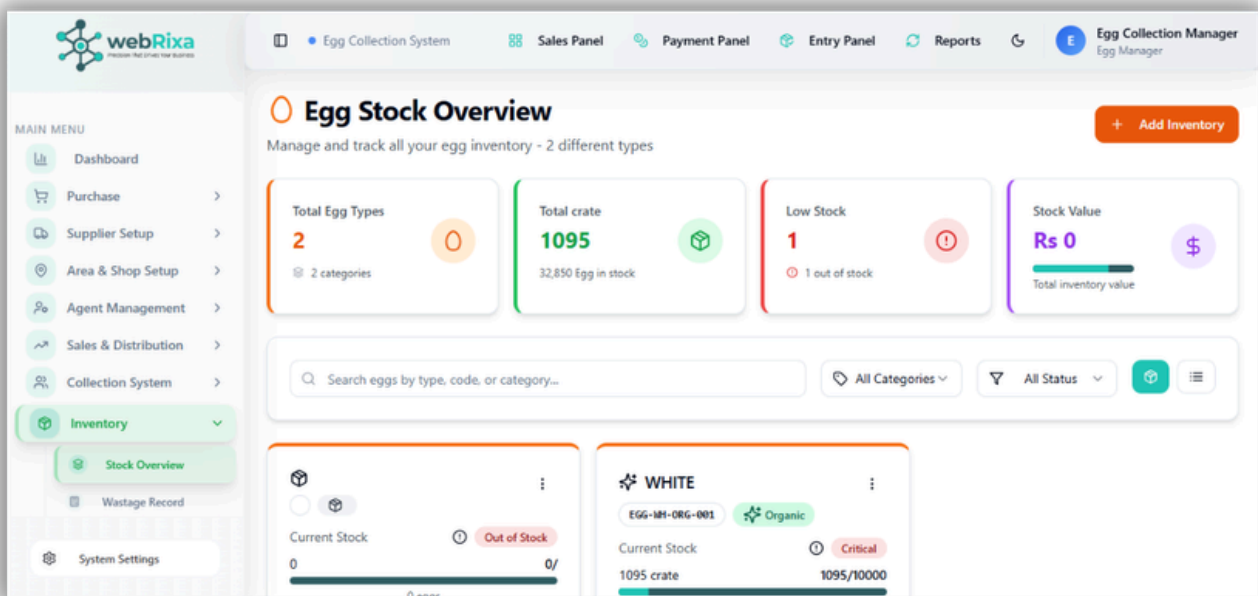

The screenshot displays the 'Daily Collection' dashboard within the 'Egg Collection Manager' system. The interface includes a main menu on the left with options like Dashboard, Purchase, Supplier Setup, Area & Shop Setup, Agent Management, Sales & Distribution, Collection System (selected), Inventory, Credit Management, and System Settings. The main content area features a 'Date Filter' section showing data for 05/04/2026, with a 'Today' button and a 'Date Range (Optional)' field. Below this, there are five summary cards: 'Today's Collection' (Rs 0), 'Direct Payment' (Rs 0), 'Total Shops' (0), 'Total Areas' (0), and 'Total Agents' (0). At the bottom, a 'Daily Collection Summary' section indicates 'Total: 2 entries'. The top navigation bar includes 'Egg Collection System', 'Sales Panel', 'Payment Panel', 'Entry Panel', 'Reports', and 'Egg Collection Manager'.

08. Inventory

Total control over your stock is provided through this comprehensive module. It manages stock-ins, stock-outs, internal transfers, and adjustments. With real-time visibility, businesses can avoid stock-outs and minimize overstocking, optimizing capital investment.

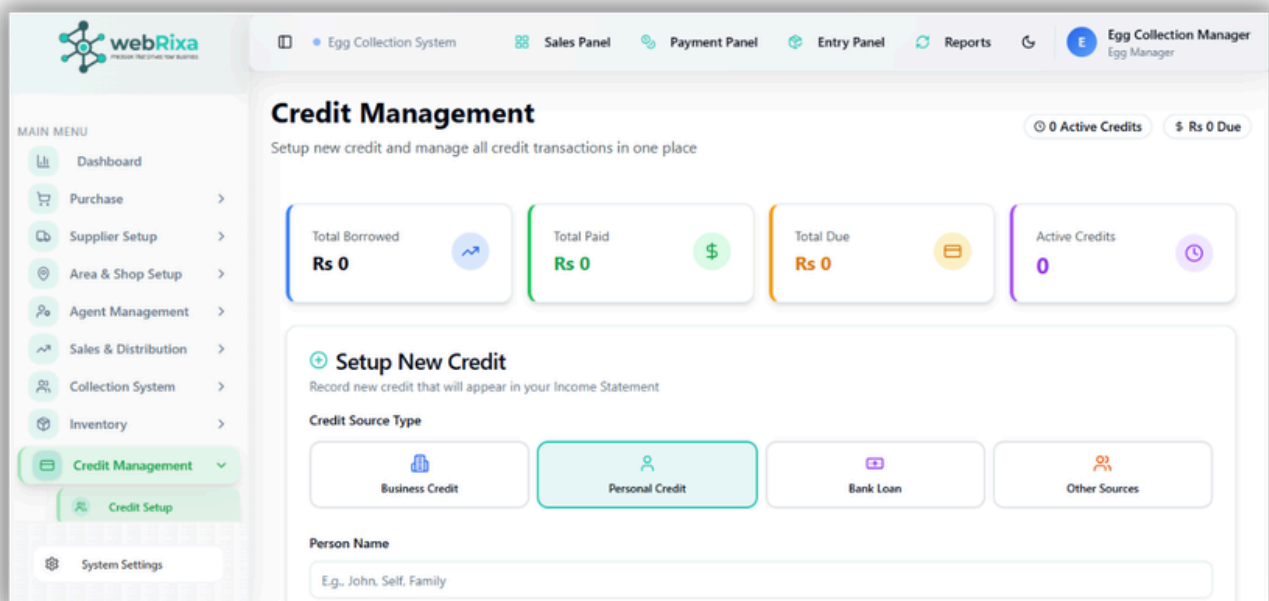

- Real-time stock level monitoring.
- Barcode and SKU management.
- Multi-warehouse stock tracking and transfers.

09. Credit

Managing risk is vital in business. The Credit module allows for the setting and monitoring of customer credit limits. It prevents unauthorized credit sales and provides management with tools to evaluate the creditworthiness of long-term business partners.

- Customer credit limit setting and approval.
- Credit history and payment behavior analysis.
- Credit-sale blocking for defaulting customers.

The screenshot displays the 'Credit Management' dashboard within the webRixa system. The interface includes a top navigation bar with the 'Egg Collection System' and various panels like 'Sales Panel', 'Payment Panel', 'Entry Panel', 'Reports', and 'Egg Collection Manager'. A left sidebar lists the 'MAIN MENU' with options such as 'Dashboard', 'Purchase', 'Supplier Setup', 'Area & Shop Setup', 'Agent Management', 'Sales & Distribution', 'Collection System', 'Inventory', 'Credit Management', and 'System Settings'. The main content area features a 'Credit Management' header with a sub-header 'Setup new credit and manage all credit transactions in one place'. It displays four key metrics: 'Total Borrowed' (Rs 0), 'Total Paid' (Rs 0), 'Total Due' (Rs 0), and 'Active Credits' (0). Below these metrics is a 'Setup New Credit' section with a sub-header 'Record new credit that will appear in your Income Statement'. This section includes a 'Credit Source Type' selection with four options: 'Business Credit', 'Personal Credit' (which is selected), 'Bank Loan', and 'Other Sources'. A 'Person Name' field is also present, with a placeholder 'E.g., John, Self, Family'.

Precision That Drives Your Business

10. Finance

The Finance module is the accounting heart of webRixa. It manages the Chart of Accounts, cash books, bank books, and general journals. It ensures that every commercial transaction is reflected in the financial statements for accurate auditing and tax compliance.

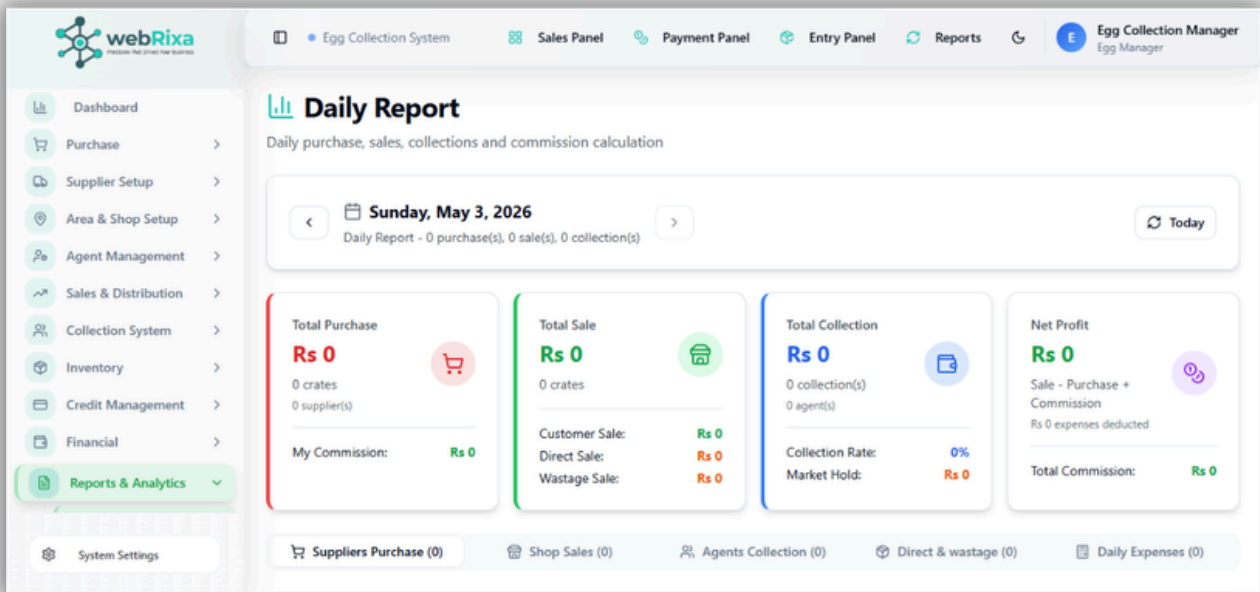

- Cash and Bank management.
- Expense tracking and journal entries.
- Trial Balance and automated financial statements.

11. Reports

Unlock the power of your data. The Reports module provides dozens of pre-defined and customizable reports covering every department. From profitability analysis to detailed ledger reports, it provides the documentation needed for internal reviews and external audits.

- Sales and Purchase summary reports.
- Inventory valuation and movement reports.
- Customizable date-range filters for all data sets.
